 OUR
BENEFITS

ONE-ON-ONE ATTENTION

To ensure you're making the right amount of progress, you get one-on-one sessions with your Primary Bar Physician. We're with you every step of the way—so that no one slips through the cracks.

SUBJECT DISSECTION SEMINARS

Take a deep dive into every subject area and dissect essay and MBE questions, so you can understand how to tackle everything you'll see on the exam. Guided by BarMD's expert faculty, these lectures are like nothing you've ever seen before.

SUBSTANTIVE OUTLINES

We give you everything you need to master the law. You'll have access to most thorough, easiest-to-use outlines you've ever seen. We distill the law into clear, concise material that's easy to digest—and even easier to memorize.

DETAILED WRITING GRADING

We provide more thorough advice than any other bar exam company. Our faculty dissects every word you write, then tells you how to make it better. No more of that generic, copy-paste, two-comments-per-essay nonsense. With BarMD, you'll get more than two comments per paragraph. Make real changes with real feedback.

THE CALENDAR THE CONTENT

May 28, 2018

BAR-OLOGY 101

First, we'll take you inside the mind of the bar grader—and walk you through exactly how the bar exam is graded and what the bar exam score actually means. This is crucial: when you know how a bar grader thinks, you're certain to get more points. Then, we'll show you how to arm yourself with every tool possible. Never outlined before? No problem, we'll show you how. Don't know how you'll memorize all that information? We've got you covered. Day 1 starts you off on the right foot, so you cross that finish line.

MBE THERAPY

We'll take apart MBE questions piece-by-piece. You'll learn all the best rules of thumb—so even if you're not sure on a question, you'll have plenty of ways to reach the right answer. But we don't stop there: We'll also teach you to thoughtfully assess your MBE progress, to ensure that you're improving every day.

THE PERFORMANCE TEST PANACEA

Students think the performance test is intimidating. It's not. We teach you how to master the closed-universe project that is the PT. From the order in which you read the materials—yes, it matters!—to the timing down to the minute, we'll train you to crush the performance test and score every possible point. By the time you're done, you'll look forward to these 90-minute adventures.

ESSAY ANATOMY

No, you can't just read a fact pattern and write an essay. You must know what goes where, and how to plan it out before you start writing. Like everything else, a well-planned essay is a strong essay. This class gives you the template you need to make sure the bar grader sees every single point you deserve. It also ensures you hit every goal, use every fact, and spot every issue. Using BarMD's unique CRAMP™ essay-planning method, you'll spend 25% of your time planning what you write, and 75% of your time writing the best possible essay.

ANALYSIS AILMENTS

What is an inference—and why does it matter? How do I actually show the bar examiner that I know what the law is and how to apply it? We break these and other questions down and teach you the formula for success. By the time you walk out the door, you'll be scoring higher on every practice essay. (Hint: your best tool is the word "because.")

June 23, 2018

BAR EXAM REHAB

It's crunch time. You'll have already improved remarkably (and we'll show every student how much progress they've made). Now, it's time to hammer down on the skills you've still got room to work on. This class is specially designed to drill deep into your analysis, structure, and writing tools, to further refine them before test day.

July 7+8, 2018

FULL SIMULATED EXAM

Before you walk into the bar, you'll have already taken it. Our proctored, two-day bar simulation is designed to test all the skills we've taught you, and to identify any continuing areas for improvement. Take a full ride through the real bar exam, so when you walk in the door on test day, it'll be routine. And yes, we score it!
