

THE METHOD + THE BENEFIT

THE METHOD

BarMD uses scientifically-proven memory retention and skills-development techniques, specifically designed to ensure that students improve every day, and—more importantly—that they pass.

Every detail—down to the order in which you study each subject—has been carefully crafted to ensure maximum success. We don't just give you the law, we teach you how to use it.

WHAT YOU GET

When you enroll, you're getting the whole kit and caboodle:

- 16 line-by-line graded written assignments
- A set of Critical Pass™ Flash Cards
- Assignment to a Primary Bar Physician, who'll guide you all the way
- Two in-person meetings with your Primary Bar Physician
- BarMD Model Essay Answers
- BarMD Performance Test Model Answers
- An MBE Journaling Guide
- Self-assessment, issue spotting, and other practice activities
- Five live classroom courses
- A full, two-day simulated bar exam

BarMD

THE CALENDAR + THE CONTENT

INTRO + MBE STRATEGY **DECEMBER 9, 2017**

First, we'll take you inside the mind of the bar grader—and walk you through exactly how the bar exam is graded and what the bar exam score actually means. This is crucial: when you know how a bar grader thinks, you're certain to get more points.

Then, we'll take apart MBE questions piece-by-piece. You'll learn all the best rules of thumb—so even if you're not sure on a question, you'll have plenty of ways to reach the right answer. But we don't stop there: We'll also teach you to thoughtfully assess your MBE progress, to ensure that you're improving every day.

THE PROFORMANCE TEST **DECEMBER 10, 2017**

Students think the performance test is intimidating. It's not. We teach you how to master the closed-universe project that is the PT. From the order in which you read the materials—yes, it matters!—to the timing down to the minute, we'll train you to crush the performance test and score every possible point. By the time you're done, you'll look forward to these 90-minute adventures.

STRUCTURE + PLANNING **DECEMBER 11, 2017**

No, you can't just read a fact pattern and write an essay. You must know what goes where, and how to plan it out before you start writing. Like everything else, a well-planned essay is a strong essay. This class gives you the template you need to make sure the bar grader sees every single point you deserve. It also ensures you hit every goal, use every fact, and spot every issue. Using BarMD's unique CRAMP essay-planning method, you'll spend 25% of your time planning what you write, and 75% of your time writing the best possible essay.

ADVANCED ANALYSIS JANUARY 6, 2018

What is an inference—and why does it matter? How do I actually show the bar examiner that I know what the law is and how to apply it? We break these and other questions down and teach you the formula for success. By the time you walk out the door, you'll be scoring higher on every practice essay. (Hint: your best tool is the word "because.")

FULL SIMULATED EXAM JANUARY 13 & 14, 2018

Before you walk into the bar, you'll have already taken it. Our proctored, two-day bar simulation is designed to test all the skills we've taught you, and to identify any continuing areas for improvement. Take a full ride through the real bar exam, so when you walk in the door on test day, it'll be routine. And yes, we score it!

BAR BOOT CAMP JANUARY 20, 2018

It's crunch time. You'll have already improved remarkably (and we'll show every student how much progress they've made). Now, it's time to hammer down on the skills you've still got room to work on.

This class is specially designed to drill deep into your analysis, structure, and writing tools, to further refine them before test day.

ONE-ON-ONE SESSIONS

In addition, you get two one-on-one sessions with your Primary Bar Physician. The first comes before class begins, so we know what your starting points are. The second happens after Bar Boot Camp, so we ensure that you've got everything you need to charge into the exam as prepared as possible.
